TO: Residents and Family Members

FROM: Loriman Looke, Executive Director and Administrator

RE: COVID-19 Positive Individuals

I am writing to inform you that a number of individuals associated with Quarry Hill have tested positive for COVID-19 in recent days.

Contact tracing at Anderson Inn has begun, resulting in the testing of some residents and care team members for the virus. Additional testing may occur if directed by the Maine CDC.

Per usual, we are in communication with the Maine CDC and MaineHealth to ensure that we are taking all the appropriate steps and doing everything possible to keep COVID-19 from spreading within the Inn. Rest assured that all established safety measures—including masking, screening of those entering the Inn, social distancing and increased hand hygiene—continue.

Family members, we will contact you if there are any concerning changes regarding your loved one's health and will continue to provide updates as they become available.

If you have questions, please don't hesitate to reach out.
